# SAHED AHMED

Airport, Dhaka, Bangladesh
asahed532@gmail.com | +8801959110458
GitHub | LinkedIn

## Career Objective

Motivated Computer Science and Engineering student with a strong foundation in software development, analytical thinking, and problem-solving. Experienced in full-stack application development and passionate about building efficient and scalable software solutions. Eager to contribute to innovative projects while continuously expanding technical expertise in a professional environment.

## Education

**Bachelor of Science in Computer Science and Engineering (CSE)** 2023 – 2026
American International University-Bangladesh (AIUB)

## Relevant Coursework

Advanced Web Technologies, Data Structures and Algorithms, Software Architecture and Design Patterns, Object-Oriented Programming, Database Management Systems, Software Engineering, Computer Networks, Operating Systems, Artificial Intelligence, Data Science, Computer Vision and Pattern Recognition.

## Technical Skills

- **Programming Languages:** C++, C#, Java, JavaScript, TypeScript, Python
- **Frontend Technologies:** React.js, Next.js, Tailwind CSS, HTML5, CSS3, shadcn/ui
- **Backend Technologies:** Node.js, Express.js, NestJS
- **Database:** PostgreSQL, MongoDB
- **Software Design & Architecture:** Design Patterns, Software Scalability, Software Requirement Engineering, REST API Design
- **Data Science & AI:** Data Analysis, Computer Vision and Pattern Recognition
- **Tools & Technologies:** Git, GitHub, Postman, VS Code, Docker
- **Other Skills:** JWT Authentication, Object-Oriented Programming, Software Testing, Problem Solving

## Projects

**DKPSSHP Hospital Billing System** Live Demo | GitHub
Next.js, React, TypeScript, NestJS, PostgreSQL, Drizzle ORM

- Built a full-stack hospital billing and operations system to manage patients, doctors, diagnostic tests, service packages, admissions, bills, payments, and expenses.
- Deployed to production, where it is actively used by real users for hospital billing.
- Developed a NestJS REST API with PostgreSQL and Drizzle ORM, secured with JWT authentication and role-based access control.
- Implemented paginated records, financial reports, date-based exports, printable invoices, and audit logging.
- Wrote SQL migrations and database safeguards to keep bill balances consistent with the payment and refund ledger.

**FounderLink** *(Team Project)* Live Demo | GitHub
Next.js, TypeScript, Tailwind CSS, shadcn/ui

- Developed the frontend of a co-founder matching platform that scores user profiles against startup co-founder roles using an explainable, four-factor compatibility score.
- Built responsive, reusable user interface components with Next.js, TypeScript, Tailwind CSS, and shadcn/ui.
- Deployed on Vercel and collaborated with teammates using Git and GitHub.

## Languages

- English – Fluent
- Bangla – Native

## Co-Curricular Activities

- Participated in AIUB Inter University Problem Solving Competition, 2024.
- Ongoing Research Work With Supervising Faculty
